AN INNOVATIVE SELECTION OF  
**WALL COVERINGS**  
DIGITAL PRINTING ON DEMAND  
**TO CUSTOMIZE YOUR PROJECTS**

WallFORMe brings your décor to life, turning walls into active participants in a building's function, enriching it and adding an original touch that infuses it with a soul.

WallFORMe is an innovative collection of wall coverings that can be digitally printed on demand, offering a unique combination of technology, quality and creativity.

Texdecor designed this new range to fully satisfy the requirements of a building's dry wall: compliance with regulatory constraints and conditions of use while also giving each project its own personal touch and unique identity.

Now, with WallFORMe, the need for durability, hygiene and acoustic comfort go hand in hand with aesthetics!

**A CUSTOMISED, VISUALLY ATTRACTIVE ENVIRONMENT**

Digital printing is used to print visuals, photographs, images, designs, and/or logos on the substrates at high, photographic-quality resolutions, adding an aesthetic dimension to the coverings' technical qualities and creating a true symbiosis between material, image, and space.

WallFORMe coverings enhance a wall's image by giving it a tactile feel and a sense of depth, as well as catching and reflecting ambient light. Together with the intensity of tones, these provide an integral and indivisible relationship between medium and image that stirs the emotions, piques one's curiosity, calms the spirit or brightens up one's day.

Whether it's the softness and comfort of a hotel room, the warmth and friendly welcome of a pub, the bright cheerfulness of a reception room, the discretion and calm of an office area, the dynamic and fresh appeal of a boutique, these unique coverings shape the ambiance of your premises.

After selecting the functional medium best suited to your use, create your desired ambiance by combining your image with one of the numerous decorative effects available for WallFORMe. Images can be enlarged, resized, or transformed to fit the configuration of the intended space.

**FUNCTIONAL WALL COVERINGS**

WallFORMe print substrates fully meet the specifications for commercial and public establishments, including maximum durability for intense use in public areas, easy maintenance to meet hygiene standards in medical facilities, acoustic comfort in offices and functional premises, etc. At launch, this concept is available in 3 collections:

**SUBLIME WALLCOVERINGS**

6 decorative effects produced using innovative qualities that enhance your image and give your premises a unique style: velvet, metal, peachskin leather, silk, quartz, canvas.

A tactile feel, a sense of depth, the way it catches and reflects ambient light, and the intensity of its tones, comprise an integral and indivisible relationship between medium and image.

**ESSENTIAL WALLCOVERINGS**

6 timeless structures on a highly durable and compact vinyl covering with antibacterial treatment, large width 125 cm, B s1 d0 fire rating.

This solution is particularly well suited to intensive use in public areas and functional spaces as well as in medical establishments having specific hygienic requirements.

**ACOUSTIC WALLCOVERINGS**

3 different structures on an NRC 0.25 acoustic substrate designed for intensive use, with coated micro-perforated vinyl on absorbent fleece, large width 125 cm.

Reduces audio vibrations, improving the acoustical level of comfort. This solution is designed to meet the acoustic requirements for public establishments while also decorating them.

**AN EVOLUTIONARY AND INNOVATIVE CONCEPT**

Upon launch, WallFORMe offers a rich selection of 15 functional and decorative coverings. This selection will be regularly updated to keep up with new trends and develop new uses.

Our team of interior decorators is at your disposal to assist in determining the best combinations of medium and image, and in adapting the visual aspects to your project's specific needs.

We also invite you to sign up to our **WallForMe-News** newsletter at [www.texdecor.fr](http://www.texdecor.fr) to keep informed of the latest updates to the Texdecor-Digital range.

WITH WallFORMe, A FUNCTIONAL WALL BECOMES A DECORATIVE ELEMENT AND MEDIUM OF COMMUNICATION.
